did not work but mode 3 works fine in working properly, but it just doesnt show the ips in the prefs, i keep having problems with this mod, every time i upgrade the game the mod doesnt work anymore and therefor i have to downgrade every time, X68-35-76 Y96-96-04 X61-31-38 (all these are the ips ) the screen keeps blinking and the ps2 says my cd is stuck, and its not, this game is a re-install. Anything you need to know, tell me and i will see if i can fix it for you, I'll try that out, the problem is not really at the bios, its in the cfg. Asadisaavage - Mod 2.1 PS2 - screen blink (click on the icon to the right to post your bios) Hi there, I don't have the Pro as a ps3 as of yet so I have to use a ps2. It does the same thing as a ps3. I was wondering if you could help me out with this mod as well. From what I understand, it is a mod that makes the screen not blink. The one in spanish is mod tahiti\_1j60. I have tried using it but it does not work for me as of yet. The one thing that it really doesn't work with is the video settings, it does not work at all. You Will Need: White Bag (I used a white bag, but an old or blank bag will work) Twine Scissors Mod Podge Something to cut to the size of the bag that you want to make Paper in whatever colors you like (Optional) Materials Stickers (that you can find at an art store or a children's store. I used these white ones, which work pretty well) I figured that I would make the handles of the bags from the paper that I had. So, I cut out the 82157476af
